To the Editor:

Rachel Khanna is currently serving in the Connecticut House of Representatives in Hartford. If you have not met her in person, you have missed a treat! Rachel turns up consistently at every event that encourages celebrations of individuals or causes which will add improvements to Greenwich and Stamford. Among her accomplishments in her first term include:

1. Increased funding for public schools by millions of dollars
2. Supported a balanced bipartisan State budget
3. Helped pass the first income tax cuts since the 1990s
4. Expanded access to birth control and abortion rights
5. Succeeded in bringing \$100 million back to our residents for school construction, road improvements and other local projects

Please re-elect Rachel Khanna! Join the many local voters who have noticed her bipartisan successes, her accessibility, her frequent communications with her electorate and her visible enjoyment of her hometown, her husband and their four daughters. Personally, I am delighted with her fervent support of local control of development guided by our very outstanding volunteer Planning and Zoning Commission.

As an involved citizen of Greenwich since my childhood, I listen to the many comments from friends and neighbors about the excellence of Rachel's first term as a state representative. Why should we change in the face of great job performance? VOTE FOR RACHEL!!!
